

Items	Update	Update
Date on which you worked on the project.	2/18/26	2/20/26
Number of hours spent on that day.	1	4
Type of component, implementation or document.	SRS document	SRS document
Which specific part did you work with, e.g. requirement number or section of a document. (Mention multiple if necessary)	3.3 Use Cases	3.4 Non-functional Requirements, 3.5 Design Constraints, 3.6 Logical Database Requirements
Brief summary (3-4 sentences) of what was accomplished during this time.	I refined the 2 use cases I finished on the week prior. I began formulating other functional requirements and their subsequent use cases based on the user stories created by group previously. However, this task was finished by another team member later.	In section 3.4, I added to the security section information about the database access for the user. I filled out 3.5 regarding design constraints including information about the software and hardware limitations. Additionally, I reformatted each non-functional requirement and design constraint to be easier to reference to in the future while working on the project. I also worked on section 3.6 involving the entities, entity definitions, relationships, and data integrity constraints. After discussing with my group, I condensed the entity definitions to a paragraph as opposed to a full schema.
Total number of hours worked during the week.		5
