Team Personal Media Tracker Sprint 2 Planning Document

1 SPRINT OVERVIEW

1.1 OVERVIEW

Sprint 2 will include the development of many notable features of Personal Media Tracker. This includes the development and finalization of the following components:

- User instances
 - The user will be able to select different profiles. Each profile will have their own list of tracked titles under their user instance.
- Data export
 - The user will be able to export their data. Data will include a list of their tracked titles as well as any user input information. Data will be exported in a nicely formatted way.

1.2 SCRUM MASTER

Sasha Crawford

1.3 SCRUM MEETING TIMES

Wednesday April 1, 2026 @ 12:00pm

Thursday April 2, 2026 @ 12:00pm

Wednesday April 8, 2026 @ 12:00pm

1.4 RISKS/CHALLENGES

- User instances may become complex for saving tracked titles.
- Formatting exported data may be difficult depending on strategy chosen for export and file type.

1.5 PREVIOUS SPRINT EFFORT

Task	Estimated	Actual
Connect rating and reviews to DB	2	-

2 CURRENT SPRINT DETAIL

2.1 USER STORY

As a user, I should be able to create and select a profile I'd like to use. I should also see *my* tracked titles and information.

2.1.1 Tasks

Task description	Estimated time	Owner
Create and select profile UI	2	Sasha Crawford
Create profile functionality	2	Sasha Crawford
Profile save to DB	2-3	Sasha Crawford
Profile specific tracked title	3	

2.1.2 Acceptance criteria

If the user story is implemented successfully, the user will be able to create their profile (or select if created) and then view their tracked titles.

2.2 USER STORY

As a user, I should be able to export and view my data.

2.2.1 Tasks

Task description	Estimated time	Owner
Export Data	2-3	Sasha Crawford
Format Exported Data	1	Sasha Crawford

2.2.2 Acceptance criteria

If the user story is implemented successfully, the user will be able to click export and find a downloadable file where they can view their selected titles.
