

Weekly Log

Date	Time Spent: (hr)	Type: Component, Implementation, or Document	Specific Part:
16-Mar	1	Sprint 1	Sprint Document
17-Mar			
18-Mar	1	Sprint 1	External DB Search
19-Mar			
20-Mar	1	Sprint 1	DB Connection Research
23-Mar	2	Sprint 1	DB Connection
Total Number of Hours:	5		
Summary of Completion:			
1. Assigned personal roles in the sprint document 2. Cleaned and found a database of titles to connect to application. (This apparently was not apart of my roles from the sprint document, however, I thought it was since it was my role to connect the databases to the UI. There are two tables in a single database to streamline the connection to the application. 3. After connecting the database, I wrote the search function to test the connection to the database.
